4. Worksheet: Software Installation

Jonathan Enriquez Madrid

18 January, 2023

Directions:

This is an RMarkdown file. It will allow you to integrate text and R code into one file. Please complete parts 1 and 2 below. Part 3 should be left alone (it should work as needed) When you are done, **Knit** the text and code into a PDF file. Basically, just press the **Knit** button above. After Knitting, please submit via GitHub. Review **2. Reproducible Science with Git and GitHub** Handout if needed. It is due on **January 18th, 2023 at 12:00 (noon)**.

Assignment:

1. Edit your name in the *author* line above (line 3)

2. Print a message from R using the `print` command (practic in console)
   E.g., Print "*Hello, World!*"

```r
print("Hello, my name is Jonathan")
```

```
## [1] "Hello, my name is Jonathan"
```

3. Tell us about your system (just leave this part alone and it will do magic)

Do Not Modify This Part

```r
info <- unname(c(Sys.info()[6],
         .Platform$OS.type,
         Sys.info()[1:2],
         R.version.string,
         .Platform$GUI,
         system("git --version", intern = TRUE)))
info
```

```
## [1] "jonat"                          "windows"
## [3] "Windows"                        "10 x64"
## [5] "R version 4.2.2 (2022-10-31 ucrt)" "RTerm"
## [7] "git version 2.39.0.windows.2"
```
